

## CHAPTER 12 - GOT THE MONEY

*Liches* are powerful undead - more powerful even than vampires. There are currently ninety-two types of unexplained phenomena which can be explained by lich activity. A lich is actually a sorcerer, but is always skilled in hand to hand combat. So goes the hearsay - in reality, liches are probably just an angry type of ghost.

*After three days, Joey Riot is tired of running - but he is still running - he is running up the side of a steep hill. The sun is shining brightly - it is a beautiful day.*

*As he reaches the apex of the hill, he sees a cave to the right - a large cave carved out in the mountainside. He wanders in.*

*He finds a golden orb and he drops it. He can't see it. He turns into a lich.*

*He imagines himself in millions of years to come, slowly melting the orb down and making it into money. He doesn't need it right now, because he is rich. He starts to imagine that he is rich.*

*"Oh shit"*

*Rich lich.*

## **The Lich Song**
