

CHAPTER 9 - The Dog Daisy

KRIS' OFFICIAL STATEMENT

What is wrong with the Jews? I am a proud anti-Nazi traditional Jew. In my defence - Jewish people hate other Jews, and, all Jewish people have lots of clothes.

***What Rowan said** I don't care because I am hard as fuck. You didn't even spell Jews right¹. Jewish cunt! Also I am not a real doctor, sorry about that.*

Think about that, it actually makes sense. Why do Jewish people invite other Jewish people to Barmitzvahs? Because they hate them. Why do they go? To prove they can do it.

"So" Grue Kurt begins..

"Does Joey Riot have long squared predivision?"

"No." says the senior Grue official.

"Does he have actual timestop?"

"No."

"Does he have an electron bomb which destroys the nearest 16 billion solar galaxies²?"

"No, he's too short."

¹ (Gooze)

² Galaxies with stars in.

A CONVERSATION KRIS KNEW WOULD BE IN THE BOOK

What Rowan said *How many private concentration camps do you have in space mate, like you said? It's for the book.*

What Kris said *14 million billion billion billion trillion and three.*

Is this just an excuse? *Yes. Did Rowan type this? No. By the way I did type it and I am a rabbi. Confused? Jealous? Me too³.*

"Does he have stormed troops? You know what, this list can fuck off."

"No, he does not have stormed troops, sir."

"Fine. Million year leaps without accelerations?"

"No."

"Does he have any knowledge of god sciences or extroterrosism?"

"Er, no."

"Finally. So, mister assistant chief of staff, how essential to our disposal of Joey Riot is construction of a mech base in the Highlands?"

"Zero per cent."

"I've been mainly makin' music really." - a Joey Riot quote.

Grue Kurt then goes on to discuss the specifics of mech design.

"Here, Terry. Make a note to install a 0.1 second delay on the trigger for the scattershot, if installed alongside a main AC. This will aid morale."

"Yes, sir."

He makes a note with a 9 inch pencil on some paper.

³ I'm the guy that was sacked for beating my rabbi hat to a pulp, while not listening to music. Let's just say I'm confident.

Grue Kurt goes on to have a technical discussion with Grue Terry on the superior properties of white and yellow lasers over the normally used red and green - although white is *never* used, as it looks like shit.

"Who wants a yellow mech anyway?" Grue Kurt says.

"Humans!" Terry says.

You both laugh out loud!

"Mechs are so miniatiorially⁴ microsopic.." Kurt says.

"I wish I could vomit."

Terry says nothing - he is working on his notes, leafing through the pages, and making some sketches.

He pauses.

"If we introduce mechs then we would probably make a Scottish mech film and people would fight us but we wouldn't find out." he says, and chuckles.

Grue Kurt grins and calls Terry a poof.

"Also, we should kill all other Jews, because we can. Hahaha. Let's design some tech first relating to cylinders. Cars that run on legs oh we did that last night. I'm bored. Lol."

hOW hARD aRE gRUES iN rEAL lIFE?

FACT: they took 14 weeks to decide whether to kill all Jews first despite being so hard that they didn't care a fuck about it or to build a mech base

⁴ A word the grue invented, meaning, 'related to minotaurs'.

first holding 1,400 Atlas class mechs to keep and not use, just so that they could paint the letters S.S.U.A. on in big letters themselves.

FACT: they are hard enough to find the concept of sexual pleasure quite funny, even if it was a Geordie that was raped by a woman - it just makes them laugh. Hmm! That does sound interesting? Boring!

FACT: 29 grue once flew to the sun for a fight. They flew right to the core and started battering it with their fists. The suns core killed 20 of the 29 grue only, then got battered. They relit the core for a joke, then flew off. They thought about 20 would be killed, they were just doing it to find out the grue kill rate of the Sun, for personal knowledge, because it was funny. Grues do not get suicidal - see fact number 2 in this list. lol. Hardness.

FACT: I once killed 29 grue in a fight! It is safe for me to put this in the book because of what I showed them - that I am Nigerian. I remember that day! I still do not know how they died, but perhaps, perhaps no-one will ever find out⁵⁶.

FACT: grue are 98.7 times heavier than rock per cubic metre.

Do they have strong hands? Yes - see this... (not standing on ground)

⁵ Because you have disgusting black skin from Kris.
