

## CHAPTER X - THE KILLING OF ALEX PROSPECT

The next three pages are things I said to Kris while on the phone to him.  
This symbol

is the point where Kris hung up the phone. Things after that point (in red) are SMS messages (texts) sent from him to me, etc.

Do you know what Joey Riot's day job is in real life?

He runs about under steam rollers.

They're trying to get him squashed, but they've had to invest lots of time into it.

They're fucking sick of it.

No shit.

Don't ya know that Alex Prospect is a black person in real life? He wears a skin suit.

K.

That is depressing.

Did ya know that Fracus and Darwin, because they can't handle real drugs, keep a selection of fourteen toads in a tank - they lick them. Non-hallucinagenic ones. They do it to look hard.

K.

They sound like poofs to me mate.

Plus, do they kiss the frogs on the lips?

Yes, thanks.

I didn't know mate!

Fuck off.
